

JOB DESCRIPTION

Aerospace Components Technician/Mechanic

Ref. J077/DC/C0105/2019

- Top 5, global aerospace company
- Small team, high efficiency
- Keep the airlines moving

Our client is one of the largest global aerospace companies in the world. They have a facility in Hong Kong servicing the region's largest operators.

They are seeking for mechanics and technicians to join their team.

The facility is a crucial wheels and brake overhaul facility covering APAC. These components are little thought about, but are a small wonder, working with high strength steels and alloys and the latest carbon brake engineering technology.

Airlines rely on our client to keep their fleet, literally rolling.

Have a minimum Form 5 graduated or equivalent, 1 year relevant work experience. If you are a holder of Higher Diploma in Mechanical Engineering or Aircraft Maintenance Engineering and a strong mechanical background will have an advantage. Have fair spoken and written English.

If you only meet some of these requirements, you will also be considered and on job training can be provided.

Jump into the world of aerospace, and look forward to a rewarding career!

Interested candidates please send your CV to stepup@stepup.com.hk or visit the website <http://www.stepup.com.hk/opportunities.html> to submit your application. Candidates should submit their CVs with true, compete and accurate information.
