

JOB DESCRIPTION

Senior Supply Chain Manager

Ref: J059/WW/C0090/2019

- A growing business
- Energetic and inspiring work culture
- Opportunity to lead, drive and manage the Asia supply chain

Are you great from zero to superb product launch? Our client is seeking an individual who will define initiatives to drive continuous improvement in supply chain efficiency and excellence in operating performance.

In order to achieve this, you will be expected to work flawlessly and simultaneously with the cross functional teams to implement inventory and distribution models for category supply chain activities from Asia.

Be agile and have a cost effective total supply chain solution based on category dynamics and take this down to your team. Excellent use of aggregation of sales demand, the supply planning matrix, developing supplier production capability with full integration into the planning process and lead the development of a fully integrated supply chain model with engaging extended stakeholder management.

Step Up is searching for an outstanding profile, someone who enjoys being a leader, can create efficient change and be a strong contributor in participating Supply Chain development initiatives.

Candidates, who are interested in the role, should submit their CVs with true, compete and accurate information.
