

Job Description

Senior Finance Manager

- A leading international FMCG
- Energetic working environment
- Apply your commercial insight into the company strategy

Our client has a new exciting position as part of their expansion in Asia. They are now seeking an experienced high caliber individual to join their Hong Kong based global team as the Senior Finance Manager.

This role is more than finance, and you will need to get involved in the operation and yet have a time horizon out to five years to support strategic planning. Then work with business units in model design

This Senior Finance Manager will lead and be accountable for financial and management reporting and need to oversee the daily financial operations. The role will lead budgetary, treasury management and forecasting. Your team will carry out statutory audit and tax filing for all Asian entities. As a team leader, you need to motivate the team to drive success.

The incumbent must have a degree in accounting or related discipline with minimum 12 years' experience and at least 4 years in a leadership capacity. You must be a qualified holder of HKICPA or ACCA; must possess experience in internal control, financial accounting and management reporting. Solid experience in ERP implementation is important. Prior audit experience with Big 4 is a plus.

You need to have strong analytical skills and business acumen with the ability to see the big picture, and have worked in MNC with regional exposure in multi cultural environment.

To be selected, have high energy and be resilient, with ability to manage multiple deliverables. Be eager to drive for continuous improvement, offer solutions and act on them. Be a strong communicator, relationship builder and people leader.
