

JOB DESCRIPTION

Job No. J036/WW/C0040/2018

VP Quality

- One stop shop sourcing operation.
- Make it possible.
- QA & QC for US brands.

Our client has over half a century of heritage in sourcing and supply chain management. They take the hard work away from their customers, delivering products and apparel to the US and Europe.

They are now looking for a seasoned VP Quality to grab QA and QC, along with a team of over 50, covering China and SE Asia.

Leading and empowering the team is the key to success, and the DNA of the company. Supported by data, repeatable process, strategic planning, allows the team to eliminate problems before they even happen. You are engaging with the customer.

You will have experience in mens and ladies. apparel, exporting to the US market. The brands are mid to high tier.

Walking the talk, being with the customer and in the field is one of key our tools. Hands on supervision and training, supported by KPIs and data deliver right first time culture in the supply chain.

QA technical cover 3D fitting as well as fitting locally. The team is the soul so upgrading your team to ensure they are equipped underpins success. You will turn all you learn and analyse to deliver improvement projects across the leadership team.

You will be qualified in fashion or textiles. Have woven and knit experience, 10 years in the industry and 8 as a leader. Knowledge of the US retailers and US/European factory safety standards is a must. You are already known as a fixer of problems, great communicator in Cantonese, English, Mandarin and a leader of teams.

Step Up into the world of US apparel as VP Quality.
